This project will reconstruct SH-41 from MP 2.500 to MP 5.400. Improvements include a 4-lane divided roadway, upgrading the signal at Hayden Ave, installing a new signal at Wyoming Ave, upgrading a RR crossing signal, intersection turn bays and illumination, and adding a shared-use path on one side of the highway.

Amendment #17 increasing RW (PL) by \$80,000 in 2020

This project will reconstruct the median on I 90 between milepost 32 and 36 in order to install concrete barrier in the median. The installation of this barrier will increase the safety of the Interstate by providing positive separation between the eastbound and westbound travel lanes to reduce head-on collisions by traffic crossing the median into opposing traffic. **Amend #17 increasing PE/PC \$80,000 in 2020**

ITD certifies they have sufficient funds in the State program to support these increases and project advancement within this Administrative Amendment.

Amendment #17 is approved effective July 9, 2020 and will be posted on the KMPO Website effective July 9, 2020. Should you have questions, please contact me at (208) 930-4164.
