The 2022-2028 Transportation Improvement Program **Amendment #11** provides for the amendment and advancement of an existing programmed project by Administrative Modification where the changes do not materially change the design, concept, or scope of the original project previously obligated or currently in the program. This amendment also meets the threshold requirements for an Administrative Modification as the modification is safety related reconstructing the median on I 90 between milepost 32 and 36 in order to install concrete barrier in the median. The installation of this barrier will increase the safety of the Interstate by providing positive separation between the eastbound and westbound travel lanes to reduce head-on collisions by traffic crossing the median into opposing traffic; and include repaving of failed roadway pavement on I-90 with State funding that was approved by the ITD Board April 21, 2022.

ITD certifies Leading Idaho funds are currently available and have been authorized by the ITD Board for the use of those funds on the project identified above. The Kootenai Metropolitan Planning Organization, approves **Amendment #11** effective May 4, 2022

This amendment will be posted on the KMPO website at www.kmpo.net on May 4, 2022.
