The 2022-2028 Transportation Improvement Program **Amendment #12** provides for the amendment to existing projects by Administrative Modification allowing projects in FY 2021 to be carried forward to the next fiscal year. This amendment meets the threshold requirements for an Administrative Modification as only the fiscal year for funding is being modified and the purpose of the funds continue to be for transit capital purposes.

ITD certifies the funds in the currently approved program are available from FTA funding for obligation, to support the increase in funding to a previously awarded and obligated project.

The Kootenai Metropolitan Planning Organization, approves **Amendment #12** effective May 9, 2022

This amendment will be posted on the KMPO website at www.kmpo.net on **May 9, 2022**.
